

20 use cases of the Internet of Things:

- 1) Elderly Care Monitoring
- 2) Bike Helmet Crash Sensors
- 3) RFID Smart Guns
- 4) Electronic Road Toll Collection and Traffic Management
- 5) Wi-Fi Typewriters
- 6) Predictive machine maintenance
- 7) Air Quality Sensors
- 8) Retail Analytics
- 9) Flood Alert Sensors
- 10) Home Energy Monitoring and Control
- 11) Machine-to-Machine (M2M) Connected Devices
- 12) Concrete Infrastructure Monitoring
- 13) Connecting Your Home to the Internet of Things
- 14) Drones for Industrial and Search and Rescue Operations
- 15) Smart Smoke Detectors
- 16) Smart Tennis Rackets
- 17) Smart Door Locks
- 18) Smart Cities: Energy, Transportation, Parking and More
- 19) Smart Agriculture
- 20) Smart Watches, Fitness Trackers, Wearables and Hearables
